Chapter Test

Check Your Knowledge

Multiple Choice Copy the number of each sentence below on a sheet of paper. Choose the letter of the answer that best completes the statement or answers the question.

- Expressways are safer than other types of roads because
 - there is less traffic.
 - there are no intersections or cross traffic.
 - average speeds are higher.
 - there is no barrier between opposing traffic lanes.
- If traffic is backed up on the exit ramp you want to use, you should
 - pass the ramp and use the next exit.
 - stop on the expressway until the ramp is clear.
 - pull onto the shoulder and wait.
 - none of the above
- Expressway collisions tend to be more serious than those on other types of roads, because expressways
 - have median strips.
 - have so many conflicts.
 - have higher-speed travel.
 - have more hazards.

Completion Copy the number of each sentence below. After each number, write the word or words that complete the sentence correctly.

- You slow your vehicle without blocking those behind you when you are in the _____ lane.
- A _____ interchange is used when a side road forms a T intersection with an expressway.
- The right edge of the expressway should be marked with a _____ line.

Review Vocabulary

Copy the number of each definition in list A. Match the definition in list A with the term it defines in list B.

List A

- group or formation of vehicles traveling on an expressway
- speed used by most drivers on an expressway
- condition of unconsciously driving too fast as a result of driving for long periods at high speeds
- lane that permits drivers entering an expressway to accelerate to the speed of expressway traffic
- stretch of roadway at the end of an acceleration lane where vehicles join the flow of traffic

List B

- acceleration lane
- velocitation
- wolf pack
- common speed
- merging area

Think Critically

Write a paragraph to answer each question.

- What are the pros and cons of higher-speed driving on an expressway?
- How do you think wolf packs form on expressways?
